

Announcement by Ministry of Land, Infrastructure, Transport and Tourism, Japan

Civil Aeronautics Act defines flight rules on unmanned Aircraft (UA) as follows.

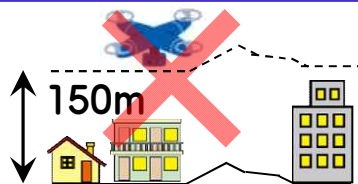

★ Prohibited Airspace for Flight

ATTENTION! Flight of UA is prohibited in the following areas. Any person who intends to operate UA in the following areas is required to obtain permission from MLIT, going through prescribed procedures.

Airspace around airports

Airspace above 150m above the ground

Airspace above Densely Inhabited Districts

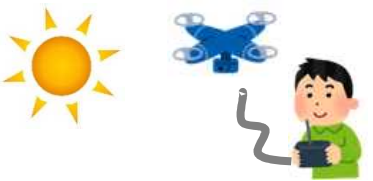

★ Particulars to be observed when operating UA

Please conform to the following operation conditions when you operate UA!

(Even after having obtained permission pursuant to the above or in case of operation in the area other than the prohibited airspace for flight, the following conditions must be observed.)

Any person who intends to operate UA without conforming to such conditions is required to obtain permission from MLIT, going through prescribed procedures.

Daytime

Visual Line of Sight

Distance

Event Sites

Transporting Hazardous Materials

Dropping objects

★ Additional Considerations

- The flight prohibited areas for drones are designated around Tokyo based on the Act of Prohibit Flights of Small-sized Aircrafts. For details, please refer to https://www.mofa.go.jp/mofaj/ms/fa/page22_003191.html 
- Flight around specific areas, such as temples, shrines and parks may be prohibited by local regulations. 
- For details of the amended Civil Aeronautics Act, please refer to <http://www.mlit.go.jp/en/koku/uas.html>
- Inquiry Counter of Unmanned Aircraft, Aviation Safety and Security Department, Civil Aviation Bureau, MLIT
